

# 50W RF+Bluetooth Dimmable Driver(Constant current)

**Important:** Read All Instructions Prior to Installation

## Function introduction

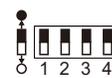

AC 200-240V input  
**Product Data**

- Dimmable LED driver with RF+Bluetooth control, dimming range 0.1%-100%
- Max. output power 50W total
- 1 channel constant current output
- Output current 250-1000mA adjustable by dip switches
- Class 2 power supply, full isolated plastic case
- Built-in active PFC function
- High power factor and efficiency
- Controlled through both smart App and remote controls, no gateway required
- Up to 30m transmission distance between every two neighbor devices
- Encrypted two-way communication, quick status feedback, safe & reliable data transmission
- Compatible with universal RF+Bluetooth remotes, each LED driver can pair to max. 8 remotes
- Enables to control ON/OFF, light intensity of LED lights
- IP20 rating, suitable for indoor LED lighting applications
- 5 years warranty

## Safety & Warnings

- DO NOT install with power applied to device.
- DO NOT set operation current with power applied to the device.
- DO NOT expose the device to moisture.

## Wiring Diagram

## Operation

### Pair/delete the pairing with RF+Bluetooth remote

1. Do wiring according to connection diagram.
2. Pair LED driver with RF+Bluetooth remote: please refer to the instruction of the remote that you would like to pair with.
3. Delete the pairing:
  - (1) Wire up the LED driver correctly, power on.
  - (2) Press and hold down the “Prog.” button on the driver for over 3 seconds (or reset power of the device 8 times continuously if the button is not accessible to factory reset the device) until the connected light flashes, which means well deleted.

Note: factory resetting will restore all configured parameters of the device on the APP to factory default setting.

### Pair with smart APP

1. Do wiring according to connection diagram.
2. Download H2A APP from IOS APP Store or Android Google Play to your smart phone or tablet by searching “H2A”. (As shown in **Figure 1**)
3. Enable Bluetooth on your smart phone or tablet. (As shown in **Figure 2**)

Figure 1

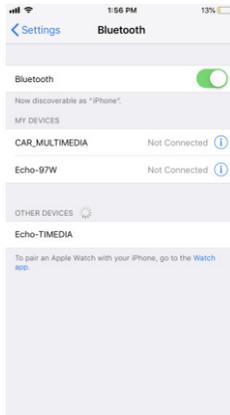

Figure 2

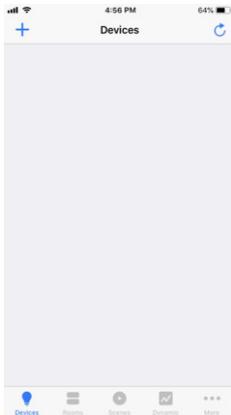

Figure 3

4. Run H2A APP, tap add button “+” on the APP to add device, then choose “Discover devices” to discover device, then **short press the “Prog.” button on the driver twice** (or **reset power of the driver twice continuously**) to set the device into pairing to APP mode. (As shown in **Figure 3 & Figure 4 & Figure 5**)

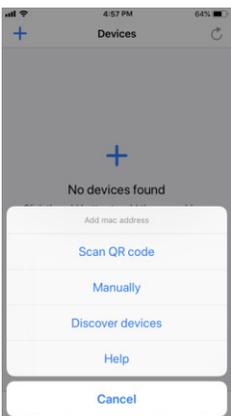

Figure 4

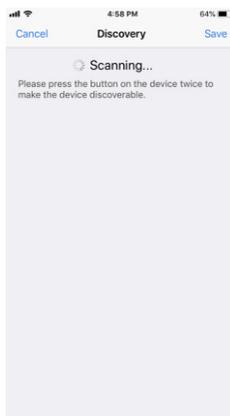

Figure 5

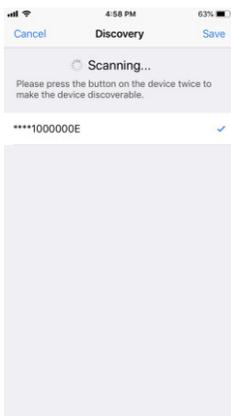

Figure 6

**Note:** multiple drivers can be discovered by the APP at the same time.

5. Once the device/devices are discovered, tick the device/devices and tap “Save” button, the device/devices will be added successfully. (as shown in **Figure 6**)

### Configure Light Type Using smart APP

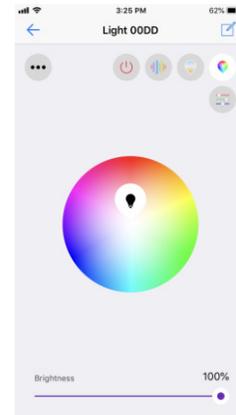

1. Press and hold the device icon to enter into control interface, then tap button “

Figure 7
